

# PowerStation Ultima II

*The ideal FAST charger for Lithium Ion Digital Camera Batteries & a USB Power Source*

The new multi-purpose charger for practically all Li-Ion digital camera batteries and charger for devices with USB charging facility.

- Plug-in charger (no AC/DC adaptor required)
- Ideal travel charger for worldwide use; Euro, UK and foldable US mains plug included.
- 12V DC input with car lead included.
- Easy to use – with interchangeable battery plates, for digital cameras of a specified brand.
- Modern, stylish and slim-line design – perfect for a frequent traveller.
- Built-in USB socket for practically all devices with USB charging facilities ie. iPhone, iTouch, MP3 etc.

**Please note that the contact plates for the original Ultima are not compatible with the new Ultima II.**

If you do require a spare contact plate, can you please ensure that you always specify the Ultima model.

For Olympus Digital Cameras

For Panasonic Digital Cameras

For Pentax Digital Cameras

For Sony Digital Cameras

For Samsung Digital Cameras

For Casio Digital Cameras

For Kodak Digital Cameras

**Available for all major digital camera brands!**

## Featuring the latest in fast charge technology

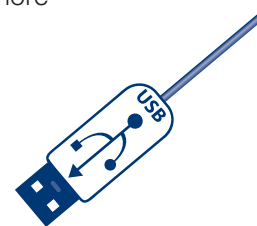

- Fast charging time of 1-2 hours depending on battery capacity.
- Automated variable charge current, depending on battery model, for safe and efficient charging.
- Sophisticated 3-stage constant current/constant voltage (CC/CV) charge programme with soft start, fast-charge and top-up maintenance charge.
- Temperature control, preventing overheating and giving battery protection.

## Your universal travel companion

- 100-240V universal voltage for worldwide use.
- Direct plug-in charger with foldable US mains plug and, depending on model, with slide on Euro and UK plug.
- A mobile solution – 12V car lead for use in car, boat or caravan 100-240V.
- For cameras tied up while recharging the battery with docking station or on-board charge, the PowerStation ULTIMA is the perfect alternative – releasing the camera from charging, allowing further use.

## USB Power Source

- USB port allowing you to charge any product with a USB charging facility.
- For all practically devices with USB power input iPhone, iPod, PDA, Game Console and many more
